

Oil & Gas Sealing Solutions

for optimal performance & reliability in challenging & aggressive environments

O-Rings

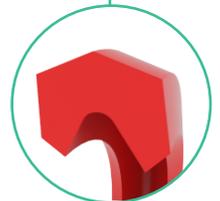

Rotary / Lip Seals

Back-up Rings

Spring Energised
Seals

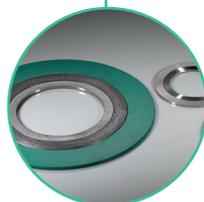

Bespoke Machined
Seals

High Pressure Seals

Mechanical Seals

Gaskets

Shaft Seals /
Oil Seals

V-Rings

Our high-grade seals are designed to perform reliably every day, even in the most challenging and aggressive environments.

Quality equipment in the oil and gas industry is required to operate in the most difficult conditions. Extreme temperatures, aggressive chemicals, inhospitable environments and fluctuations in pressure require sealing products to be highly reliable and efficient.

We have extensive experience supplying the oil and gas industry, earning a strong reputation for providing superior sealing solutions globally.

Our range of quality sealing products includes High-Pressure Seals, Spring Energised Seals, O-Rings and Gaskets, which we supply with the aim of keeping plants running smoothly, safely, efficiently and with minimal downtime.

MATERIAL EXAMPLES

- FKM (Viton®)
- HNBR
- PTFE (Teflon®)
- Perfluoroelastomers (FFKM/Kalrez®)
- Silicone (VMQ)
- EPDM

NORSOK APPROVED MATERIALS

To meet the NORSOK M-710 standard, materials must achieve accepted criteria for both rapid gas decompression (RGD)/explosive decompression (ED) and sour gas ageing (H2S).

We can supply **NORSOK** approved:

- Perfluoroelastomers (FFKM / Kalrez®)
- Polytetrafluoroethylene (PTFE / Teflon™)
- Advanced engineering plastics (PEEK / PEKK / VESPEL™)

OIL & GAS APPLICATIONS

- Exploration Equipment
- Oil Platforms / Platform Equipment
- Offshore Valves
- Swivels / Floating Production Storage & Offloading Vessel
- Safety Equipment
- Sub Sea Connectors
- Tensioner Equipment
- Downhole Tools

Typical Profiles

KB20A-EFS

KB20

KB20-AES

Anti Blowout
SE Seal

KB20-FS

KB20-ILS

Ball Valve
Seats

SB21

SB21 + BURs

A Proud Distributor of Kalrez®

We are a proud distributor of Kalrez® perfluoroelastomer parts, made from a unique material that provides excellent resistance to a wide range of chemicals.
